

WOLFREST

Distilled Dry Gin
- ITALIANO -

Wolfrest is a Gin produced in Piedmont and made solely with botanicals cultivated and collected in Italy, by four separate distillations.

A very delicate and flavoured gin, perfect mixed but incredibly easy to drink neat instead has a whisky or a grappa at the end of a meal.

Category: Distilled Dry Gin

Size: 500 ml

Alcohol Content : 43% Vol

Botanicals: 7 essences - 100% italian

Juniper berries come from Umbria, Pernambuco Sweet Orange (Liguria), Piedmont Elderflower and Langhe Botanicals: Bay Leaf, Thyme, Wild Rosemary, Hazelnut

Colour: Transparent

Olfactive Notes: It is immediately possible to recognise the scent of roasted hazelnuts, one of the most characteristic notes of Wolfrest; Juniper and rosemary perfumes persistently embrace and imbue this gin. At the end you then note the sweet and fresh aroma of citrus from the Ligurian orange. Finally Elderflower balances and harmonises the scents together

Tasting Notes: A delicate gin with a persistent body, smooth and round thanks to the richness of local hazelnuts. Umbrian Juniper, famous for moderate tannins gives a very intense taste supported by typical mediterranean botanicals such as thyme, allorum and wild rosemary.

Sweetness and freshness comes from the only one sweet orange cultivated in the north of Italy, from Pernambuco in Liguria.

Characteristics: Perfect at the end of a meal thanks to its digestive properties and smoothness.

Pairings: Wolfrest is perfect with neutral and dry tonic waters to express its natural aroma. It's recommended also neat or with bitters to contrast the natural sweetness of the gin

Wolfrest works wonderfully in a vermouth cocktails.
